

## ◆ INVITATION

**Korea-Japan Joint Forum (KJF) 2007** on Organic Materials for Electronics and Photonics will be held on **September 27 to 29, 2007 at Korea University in Seoul, Korea**. KJF started with members of 30 in 1989. Now this forum is surprisingly expanded as one of the international forums for the exchange of information about recent advances in organic materials for electronics and photonics. Lectures and posters will provide a motivation for deep discussion about the topics of the conference. We are fully confident that all participants will benefit a great deal from this opportunity of scientific exchange provided by KJF 2007.
