This document provides instructions for preparing an abstract for ICTMC19 and is written in the format according to the guidelines given below. The abstract is limited in one page of A4 paper (210 mm x 297mm) including tables, figures and references, if necessary. The text composition area (including title and references) should not exceed 160 mm wide and 247 mm high. A suggested page setup for A4 paper is 2.5 cm for the left, right, top and bottom margins.

At the top of the page, type the title in **14-point Times New Roman font bold**. Leave one blank line between the title and the name(s) of the author(s). Each author's name is to be typed in **12-point Times New Roman font bold**. For multiple authors from different affiliations, identify each author with a superscript number placed after the author's family name. Underline the **corresponding author**. Leave one blank line between the author(s) and the affiliation(s) associated with the each author. The superscript number typed at the end of each author's name should correspond to the superscript number typed at the beginning of the affiliations. Provide the e-mail address of corresponding author. This block is to be typed in 12-point Times New Roman font. The title, author, affiliation and e-mail lines are to be centered. Leave one blank line after the affiliation block, then begin text body using 12-point Times New Roman font (and Symbol or similar fonts, if necessary) and single spacing. Indicate references (if present), using sequential numbers enclosed in square brackets, e.g. [1]. List the references at the end of the text. The suggested style is given below.

We accept PDF format only. The size of PDF file should be less than 1MB. The abstract must be submitted via web site (<http://annex.jsap.or.jp/tmc/ictmc19/index.html>). No e-mail, FD, CD nor hardcopy is accepted, except when the Conference Secretariat requests it under certain special circumstances. **Deadline of the abstract submission is April 30, 2013.** Notification of acceptance will be end of May, 2005 by e-mail to the corresponding author.
